Hello! I am Yule Ribeiro

I graduated in Design and Visual Communication Rio de Janeiro Federal University in 2013. It was just in 2016 that I started my work as a motion designer. Since then, I had the opportunity to work in many companies from several market segments such as events, artistic management, and developer of content for YouTube. Now I have a background from jobs and as a freelancer that allows me be very versatile in a work environment. I am capable to produce campaigns for big companies as well to make videos for social medias, presentations, animations of visual identities, and visual effects.

Education

Rio de Janeiro Federal University
Design and Visual Communication
2013.2
